## New Concepts in Spectral Domain Optical Coherence Tomography

Grulwoski et al. Optics Express 2009

**Maciej Wojtkowski, Ph.D.**  
**Medical Physics Group. Copernicus University, Torun, Poland**

### **ABSTRACT**

---

New developments in spectral domain optical coherence tomography (high-speed, high-resolution) at the Medical Physics Group in Copernicus University will be presented, as well as different applications in fields ranging from ophthalmology to art conservation
