

SEMINARIO DE IMÁGENES Y VISIÓN INSTITUTO DE ÓPTICA (CSIC)

In- and on-the eye telescopes for low vision

Prof. Eli Peli

Harvard Medical School; Schepens Eye Research Institute-MEEI (Boston)

The seminar is a critical evaluation of the growing area of intraocular and contact lens based on telescopes for low vision. Since there are now many such devices on the market, the talk will highlight their limitations and problems with reporting about their evaluations.

**Lunes 4 de Febrero de 2019
12:30h**

**Sala de Conferencias, Instituto de Óptica (CSIC)
C/Serrano, 121 28006 Madrid**
