

Laboratorio Optica Visual y Biofotónica

Would you like to work in our lab this summer?

If you have good academic records, have completed between 35-75% of your undergraduate credits, and you have strong motivation to do research on visual optics and biophotonics, you may be eligible to a CSIC JAE-INTRO Scholarship at the Visual Optics and Biophotonics Lab at the Institute of Optics.

Requirements:

- 1.- You must be a full-time student (50 credits/year) in a university (certified by your university)
- 2.- High percentile academic record (certified by your university)
- 3.- If you are non-UE citizen, you will need an UE resident permit or student visa
- 4.- High level of English and/or Spanish

Offer:

- 1.- 1000 euros/month
- 2.- Travel support
- 3.- Join a highly dynamic and internationally recognized team, and explore possibilities of a future PhD thesis in our lab

Application

- 1.- CV
- 2.- Letter of motivation (200 words)
- 3.- Deadline: **December 17, 2008**

Information and online application form (in Spanish) at:
